## EDUCATION

**B.Tech — Metallurgy & Material Science**, COEP Technological University Pune (COEP) 2023 – 2027  
CGPA: 7.73

**Class XII — MSBSHSE**, St. Paul Junior College 2023  
72.33%

## SKILLS

|                  |                                                                                                                           |
|------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>Tools</b>     | Power BI (DAX), Advanced Excel, Python (Pandas, NumPy),<br>Data Visualisation ( Matplotlib, Seaborn, Plotly), SQL (MySQL) |
| <b>Software</b>  | Databricks Fundamentals , Google Cloud                                                                                    |
| <b>Analytics</b> | Forecasting, What-If Modelling, TAM/SAM/SOM, Data Analysis                                                                |
| <b>Business</b>  | Market Research, Business Strategy, Data Storytelling, Stakeholder Communication                                          |

## EXPERIENCE

**Data Analyst Intern** Jul 2025 – Aug 2025  
Talent Corner HR Services Pvt. Ltd.

- Built a 5-year revenue forecasting model using 32K+ data points, enabling 2.5Cr+ capital allocation decisions
- Designed What-If scenario models across 15+ variables, uncovering 75L+ incremental revenue opportunity
- Developed Power BI dashboards with custom DAX measures, improving forecast accuracy from 60% to 88%
- Collaborated with cross-functional teams (operations & finance) to align data-backed growth strategies

**Market Analyst Intern** May 2025 – Jul 2025  
Talent Corner HR Services Pvt. Ltd.

- Cleaned and processed 32K+ data points using Excel and Power Query, reducing analysis errors by 40%
- Conducted TAM/SAM/SOM market sizing, identifying 62% opportunity in tier-2 markets
- Built interactive dashboards tracking 10-year franchise performance to support expansion decisions

## PROJECTS

### Franchise Forecasting Dashboard (Power BI)

Built a multi-page analytics platform integrating 10-year data with forecasting and scenario modelling; enabled 2.5Cr+ growth insights and strategic expansion planning.

### Dubai RTA Mobility Analytics - DecodeX 2026

Analyzed 200K+ transport records to detect demand shifts; identified +29.8% Express growth and 23.5% feeder decline, proposing cost-neutral network optimization.

## ACHIEVEMENTS

- Top 10 / 1000+ Teams - DecodeX National Level Hackathon 2026 (Top 1%, Solo Participant)

## CERTIFICATIONS
